MEMORANDUM FOR: [REDACTED]
FROM: [REDACTED]
SUBJECT: [REDACTED] Material for Senator Howard Baker

1. I discussed with [REDACTED] if there is pertinent information in the additional package of [REDACTED] documents to that package of documents provided to the Joint Committee on Atomic Energy in response to Senator Baker's letter of 25 March 1976. Baker's letter requested copies of those documents on [REDACTED] that were discussed during the briefing of the JCAE on 19 February.

2. [REDACTED] explained that there is no significant information in the additional documents to that contained in the selected package of documents that were provided to Senator Baker. Baker's request was narrowed to those documents discussed at the hearing. [REDACTED] said that Chairman Dingell's request for all documents on [REDACTED] resulted in the additional information being compiled. He agrees that though the additional documents do not contain any significant information, we should offer this package of material to Senator Baker's staff for review and explain that we wanted to be sure that they were provided all information on the subject though there is nothing more significant to add.

3. I recommend that we contact Senator Baker's staff man and offer to make the additional documents available for review. I presume that this would be done through George Murphy. You may wish to brief Senator Baker personally with Bob Gambino on the security information. Attached is a copy of Senator Baker's letter, related Journal items, and Director Bush's response to Senator Baker.

Honorable Howard Baker
Joint Committee on Atomic Energy
United States Congress
Washington, D.C. 20510

Dear Senator Baker:

I have been informed by my staff that copies of all documents originated or controlled by this Agency in the files identified in your letter of 25 March 1976 have been delivered to Mr. George Murphy, Jr., Executive Director, Joint Committee on Atomic Energy. I am further advised that the Federal Bureau of Investigation has not authorized us to release their documents in those files but instead expects to deal directly with Mr. Murphy on this matter. Likewise, the FBI advised that it would be inappropriate for us to transmit an inventory listing of their documents.

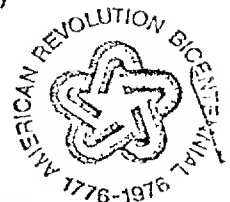

Sincerely,

/s/

George Bush
